

## Grace United Methodist Joins in Support of Olathe School District Trades Program Project

Grace United Methodist Church is the latest sponsor to join in providing Olathe School District students hands-on construction experience. On March 3, a representative of the church presented a \$3,000 gift to the students in support of their partnership with Heartland Habitat for Humanity. The church's donation will be used for the purchase of tools and equipment for the students as they put their classroom knowledge to good use on a Heartland Habitat construction site.

The students from the District's Construction Trades Department come from 17 schools in the Olathe School District and other surrounding areas. They spend time in the classroom and on the Heartland Habitat construction site each school day. In the process, they are gaining construction knowledge and experience.

The Olathe School District project will become the home of Mina Foster, a single mother of two special needs children. In addition to the generous backing of Farmers Insurance and Garmin, additional funding for the build has been provided by the Johnson County Bar Association. For more information about sponsorship opportunities on this build, contact Kate Fields at (913) 342-3047 or [kate@heartlandhabitat.org](mailto:kate@heartlandhabitat.org).
